

I am concerned about the manner in which Sinclair Broadcasting has decided to force its affiliate stations to air an anti-Kerry documentary just days before the election.

I believe this is an abuse of the privilege granted it by the FCC and the American people. I do not believe the decision of Sinclair is in or is meant to be in the interest of the American people.

Sinclair's actions show why the renewal of licenses for big media should be accompanied by proof of how they plan to fairly represent the interest of all the people. If this can not be proven then they should not be granted a license.

Thank you.
